A photograph of a dirt trap in a natural setting. The trap is a deep, narrow hole in the ground, filled with dark soil and debris. It is surrounded by dry grass, twigs, and some green vegetation. The background shows a dirt bank and a stream. The text is overlaid in yellow, bold, uppercase letters.

**WE ALL REALIZE THAT THE
MODERN INDUSTRY IS NOT
RESPONSIBLE FOR DEATH
TRAPS LIKE THIS!
BUT WE COULD SURE USE
YOUR HELP ANYWAY.**

Physical Hazards 2006 and 2007

- Tonopah backfills
- Rhyolite
- Perry Canyon
- SNPLMA Six AML projects underway
- Preble/Pinson and Barrick
- Spruce Mountain
- Ruhenstroth
- Jumbo Grade/Washoe City (50K in place SCF projected.)

We don't backfill everything-

Cooperators

- BLM
- U.S. Army Corps of Engineers
- NDOM- Nevada Division of Minerals
 - Volunteers- Eagle Scouts, etc.
- NMA- Nevada Mining Association
- BCI- Bat Conservation International
- Nevada Department of Wildlife
- Clark County MSHCP/SNPLMA
- Gold Searchers of Southern Nevada
 - Individual mines
 - NDOW
- Nevada Natural Heritage
- Operating Engineers Union

Four Cs Award

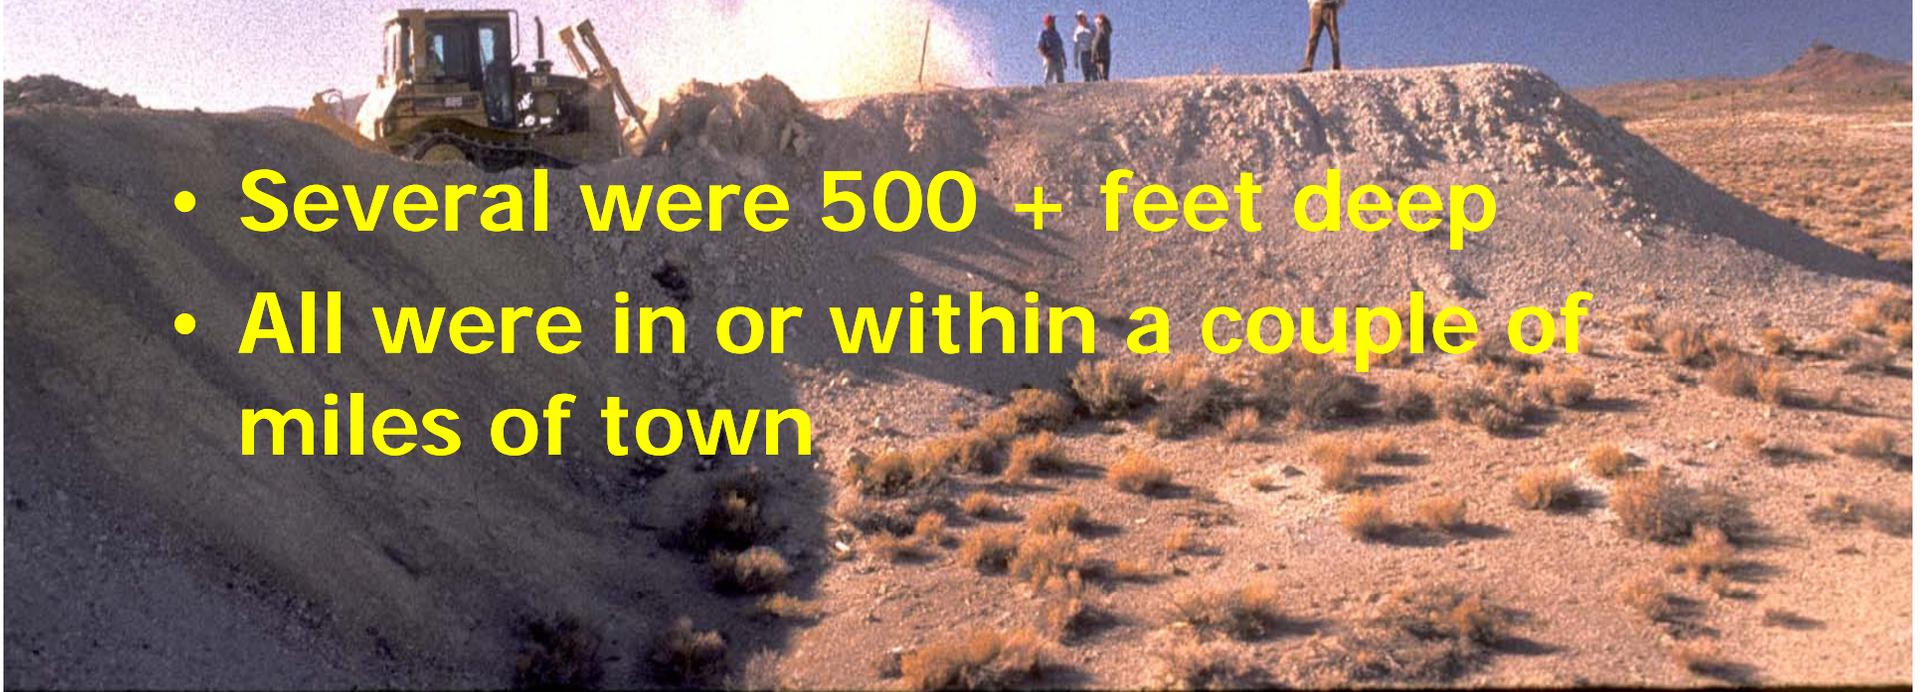

- **REWARD YOUR PEOPLE!!!!**

- Never so many cooperators honored and certificates needed in the history of the awards!

- No modern mining = no AML safety program!

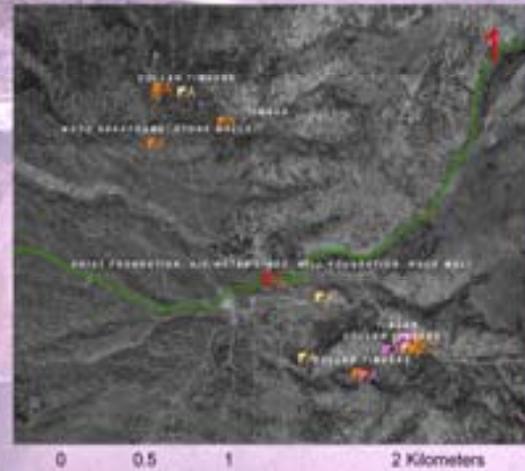

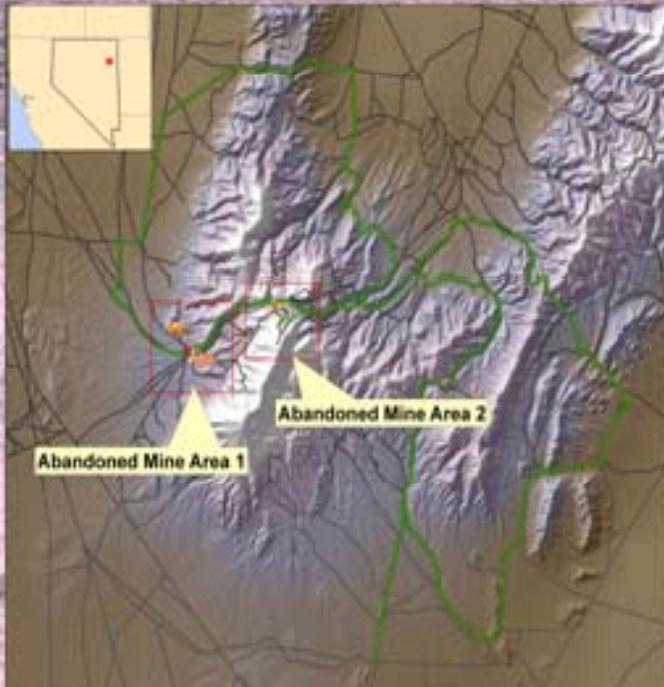

TONOPAH RESULTS

- 45 Hazards filled in five days – a new record
- Several were 500 + feet deep
- All were in or within a couple of miles of town

Spruce Mountain OHV Trail

Abandoned Mine Land & Alternative B Route

Prepared for
Nevada Landowner
Association of Nevada, Reno
11/20/2006

THE BLM, VOLUNTEERS AND STATE PARTNERS WILL DO THE HARD PART!

Bat surveys

Archaeological and cultural

Threatened/Endangered

Species

Bat netting and evictions

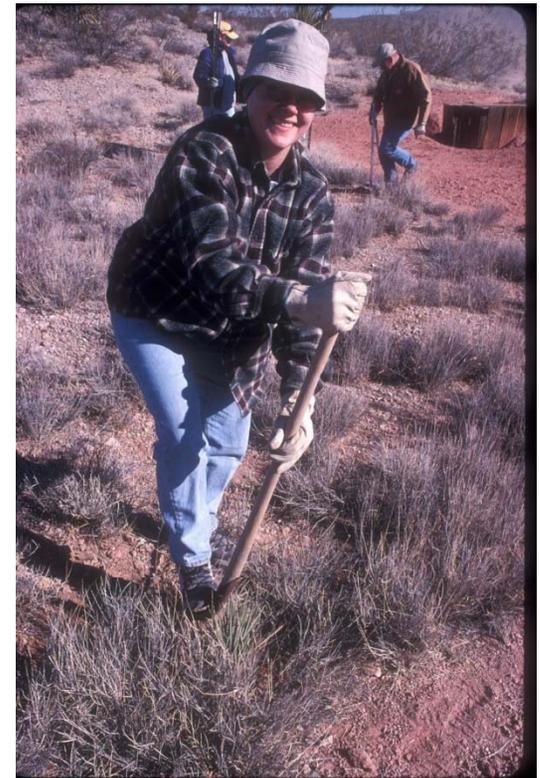

Land status research

Route planning

Fence pulling

And your all-time favorite:

NEPA!!!

• **ALL WE NEED IS
YOUR HELP WITH
PUSHING THE DIRT**

Why Secure?

- Despite public education efforts, injuries and fatalities continue.
